INTRODUCTION.

THE "Groux Collection," which has had a name in American numismatology for the last quarter of a century, is now before the public, with the veil removed. The black-letter mystery that has so long enveloped those quaint old boxes—erst seen in Boston, as we all have heard, but whose *habitat* was the City of Washington —is in the following pages gradually unfolded, and, we trust, finally dispelled.

The fond old dreamer whose name it bears has himself passed away, and the fate that befalleth all collections is about to come also upon the one with which he had freely mingled his very life.

Not without a befitting awe did the Compiler enter upon this work, and as he opened those massive boxes

> "With iron clasped and with iron bound,
> He thought as he did it the dead man frowned."

Thus solemnly admonished to be just, we are constrained to exclaim: What a most curious, most remarkable, and most valuable Collection was his! Rich, not so much in the accumulation of gold and silver coins of much weight, as in rare and precious examples drawn from the most obscure sources and remote times; full of suggestions of profound study and antiquarian lore.

As the eye surveys this historic spectacle, resting now upon the CÆSARS, and now with equal interest upon the money of their vandal conquerors—touching with feelings difficult to express, a coin of SALADIN, and another of that fierce old crusader, Roger the Norman, with CHARLEMAGNE and Barbarossa and Charles the Ninth near—how sensibly do we feel the unworthiness of our modern rage for *uncirculated cents*.

Although it seems to have been the aim of the founder

of this Collection to form a cabinet of representative coins, yet it contains a large number of pieces for which the price of rarity must have been paid.

The CARRARA medals are very fine and valuable; the series of the "Grand Masters" is peculiarly interesting, going back almost to the establishment of the Order of the "Knights of St. John," and, indeed, the collection of papal and ghostly coins, *in general*, is the first of any importance that we have seen in an American catalogue; the French, Austrian and English series contain many coins of great antiquity and rarity; Kufic Coins are here in great numbers, and the department of Ancient Coins is large and of excellent quality.

There are but few American Coins in the Collection; there are, however, a number of rare Medals—of one in particular, which appears on our plate of Illustrations, a few copies only of which have been made.

The dispersion of this Collection, around which so much glamour has existed, will be an event in the chronicles of our times, and the writer sincerely hopes will satisfy the reasonable expectations of the public, and particularly of those friends to whose kindness he is indebted for this opportunity to subscribe himself,

Most respectfully and cordially,

WILLIAM H. STROBRIDGE.

CATALOGUE

OF THE

NUMISMATIC AND OTHER COLLECTIONS

OF THE LATE

PROF. DANIEL E. GROUX,

Washington, D. C.

3 Ring. Old Florentine. Colored stones and gold.

4 Ring. Old Russian. Raised platina and gold. Fine.

5 Bracelet. Enameled gold.

6 Bracelet. Six connected Cameoes, said to have been found in a tomb near Ravenna. Heads of Crispus, Julian, (Apostate), Attila, Lucretia, Valentinian, and Constantine, Jr.; united in the same order, in old brass mounting. Diameter of stones $1\frac{3}{4}$ inches.

7 Bracelet. Seven Cameo heads on lava. P. Veronese, Domenichino, M. Angelo, Rafaelle, Titian, Correggio, and L. Da Vinci; in gold mountings, but disconnected. Diameter of heads 1 inch. Fine and desirable.

Also a bust marked CHRIST "AFTER THE FLAGELLATION." Mounted in brass gilt. Diameter 2½ inches. 12 pieces

NOTE.—These heads with those in the Bracelet (No 6), are said in a memorandum among Prof. Groux's papers, to have been found in a drinking cup taken from a tomb, supposed from other articles found with them, to have been the burial place of one of the kings of the Huns. Whatever may have been their origin, they are curious objects, and will attract attention. So far as the same portraits are to be found on other antiques, they correspond in a remarkable manner. They look very old, and appear to be carefully executed copies of Sardonyx Cameos of the Fifth Century.

23 SNUFF BOX. Presented to Prof. Groux by PRINCE ALEXIS GALATZIN in 1835. Silver gilt, with raised figures in platina. Fine and valuable.

Note.—The celebrated Carrara Medals were made in Italy about the year 1435. I am unable to give their history farther than that they were highly esteemed by the Knights of the Order of St. John, and were secured by their Grand Master, whose residence was in Malta, and by him and his successors held until purchased by Mr. Lemner, keeper of the Ambrosian Museum in Inspruck, in 1837. The price paid for them was 2,000 francs. They were in the collection purchased of Mr. Lemner's son by Mr. Groux after the death of the elder Lemner in 1839. They resemble the old Roman As of the 9 oz. size in form and weight, but they are much finer, having been elegantly chased after coming from the Moulds.
